Civil & Project Management

Galaxy Group's Construction & Contracting Division established its Operations first in Kerala, India in 2008 and extended its court to KSA (2009) and UAE (2010) Galaxy Group's Construction & Contracting Division is a company nurturing the vision to provide holistic solutions in land and property investments, development and management, with different exciting concepts that cater to the requirements of people belonging to various layers of the society, with the founders long standing business acumen in construction and property development. The brand is very keen in choosing the location, implementing cutting-edge technology and novelty in engineering application which helps Galaxy in etching its signature in realty sector

Galaxy Group delivers exceptional world-class construction services at most affordable rates. We accomplish our goal, by truly listening to clients' concerns and needs, as well as implementing the highest industry standards and quality. It is the principal objective of Galaxy Group to attain a high market profile by providing services which consistently meet the defined and agreed needs and expectations of our clients, at competitive prices.

Galaxy Group is one of the leading engineering construction company reinforced by a team of seasoned professionals, resourceful work-force and a sophisticated fleet of machinery, The firm is equipped with all modern construction equipment, vehicles, well experienced and dedicated professionals in technical as well as non technical space who are able to take any challenges. Now this firm is ready to take up any major works with least notice since it is self sufficient in all respects. Galaxy Group has executed many prestigious projects in various areas like Public and Private Sectors. Within this short period the company has completed many Infrastructure, Transportation, Geotechnical and Interior Design – Construction and Contracting works. Some of our Major Clients in Kerala PWD, Kerala Irrigation department, Kerala Water Authority, Kerala State Electricity Board, FACT, HOCL, Tourism Department, Infopark, TCS, Technopark, Nest Builders & Developers, Chungath Builders & Developers, Individual Villa projects more than 500nos, etc.

Interior Design

When you're doing something you love, it doesn't feel like doing work. Galaxy group believes the same logic for home & office design. When you love your work space, it won't feel as much like work. So how do we design the perfect layout for a workspace you'll love?

One of the most exciting aspects of designing your perfect home & office is picking out the style and feel of the room. Depending on your personality, different colors and finishes are available to choose to match the aesthetic vibe you want for your home & office design. You'll find that working in an environment that suits your tastes and preferences will enhance creativity and innovation in any work you do. Galaxy group consisting of an in-house team for designing, manufacturing and installation to reach your aspirations.

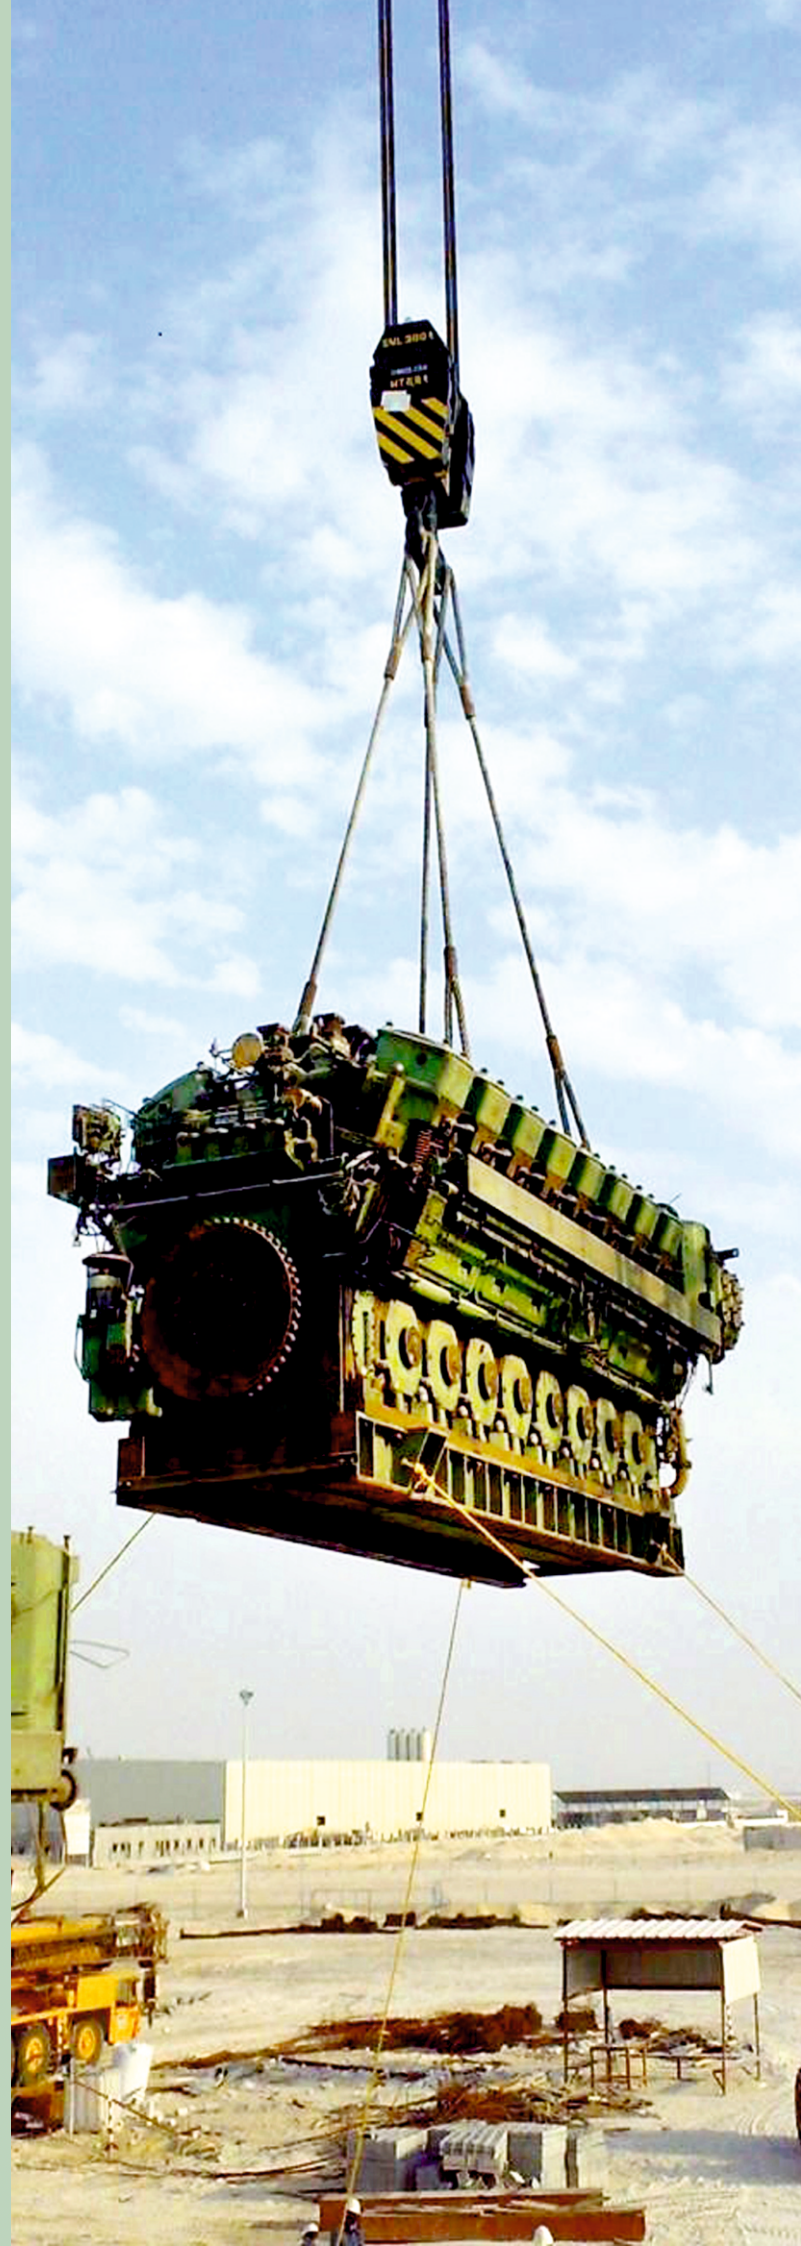

Process Equipments & Material Handling

- ◆ Cooling Tower, RO Plant, Chillier Unit & HVAC System.
- ◆ Over head cranes & Mobile cranes, Diesel Generator & alternators, Fuel Skid, Metering skid, Filtration Skid equipments, Pressure vessels, Hot metal carrier & Heavy Equipment Carrier, Steel Mill Equipment & Heavy Equipments, Bulk Material Handling equipments, Conveyor System & Conveyor Products, De dusting Equipment & Boilers.
- ◆ Water supply & Utility cooling Tower, RO System & Marine work.
- ◆ Technical support and Assistants of Operation Maintenance & shutdown Activities for the metal, power, oil and gas industries.

Electrical instrumentation & automation

Low Voltage and Medium Voltage Switchgear (MCB, MCCB, ACB, VCB, SF₆ & GIS), Main Distribution Board, Motor Control Centers, Synchronizing and Load Sharing Panels, Variable Frequency Drives, Capacitor Bank, Soft Starter and Static Variance Compensator (SVC), Plug in Bus Bar System up to 6300 A, Bus Bar, Low voltage & Medium voltage Bus Duct, Cables (Signal, Instrument, Control & Power) and Termination Kit, Cable Tray (Ladle Tray & Perforated), Cable Tray Accessories and Cable Accessories. Testing Equipments, Measuring Instruments, Instrumentation Fittings, Transmitters and Gauges, Battery Charger with Batteries, UPS & Batteries, Transformers, Transmission Lines, Switchgears, Motors, Compressors & Relays, DCS & SCADA Systems and Low Current System (BMS, Access. Control, Fire Alarm Systems, Telephone & Paging systems).

Turnkey project for Steel Power Oil & Gas Industry

HFO/ Diesel Based Power Plants, Transmission & Distribution Systems, Steel Plant, Pellet Plant, Direct Reduction Iron Plant, AC Electrical arc Furnace, Induction Furnace, Natural Gas Pipe Line, Filtration Skid, Metering Skid.

Civil Construction:- Commercial & Residential Building, Mass Housing Project and Town Ship, Information Technology Park, Corporate Offices and Hospitals, Water supply & Utility-Cooling Tower, RO System & Marine Work.

**BUILDING IS NOT

Mechanical Project Support

Overhauling of Diesel Generators, Overhauling of heat Exchange & Turbo Chargers, Fabrication & Erection of Structures, Fabrication, Erection & Commissioning of Pipe Line (Natural Gas, LFO, HFO & Water Line), Operation & Maintenance of HVAC Systems & Chillier Plant and Flushing of the Pipe lines.

Procurement & Equipment Sourcing

Galaxy group has strong sales & marketing network all over the world for the sourcing of materials & equipments. We have strong network with various suppliers all over the world. It can be assured the timely delivery with after -sales services, best price and quality that will far exceed your expectation.

Plumbing

Chilled Water distribution pipe work, Calorifies to supply hot water to Apartments, Cold water transfer and booster pumps, Hot & Cold water distribution pipe works, Drainage system including Sanitary and rainwater, RO Plants, Sewage treatment plants, District cooling Plants and Ammonium Removal Plants.

Electrical

The electrical work normally entails supply, installation, testing and commissioning of various electrical equipments/systems in the Project as previously listed. The sequence of work to be followed in the above areas is generally as detailed in the Constitution Schedule. All electrical works are undertaken in compliance with local regulations and best international standards and codes of practice. Appropriate measures are adopted to ensure the co-ordination of electrical systems with other works. e.g. Architectural, Structural, Interior Design, Mechanical, Public Health and working drawings of all divisions. While the procurement of major equipment is underway, Galaxy completes the installation of all necessary containment and cabling, the sequencing of which is shown in the construction program. Particular attention is paid to the requirements for Earthing and Lighting Protection as the structure progresses, with all necessary intermediate testing performed to ensure continuity of these systems.

Projects

MEP Projects

- All kind of mechanical works including HVAC, Plumbing, Fire fighting Etc..
- Electrical System Design
- Complete electrification work
- Plant modelling and implementation

Water Treatment Plant

DM Plant

RO Plant

Amonia Removal Plant

Chemical Dossing Plant

Sewage Treatment Plant

Flushing System

Civil Projects

Soil Testing | Surveying | Design | Land acquisition | Building Plan | Documentation | Budget | Estimation | Site clearing | Excavation | Foundation | Plinth Beam & Ground Beam | Super Structure | Brick laying | Lintels | Slab Construction | Electrical & Plumbing | Plastering | Exterior & Interior finishing | Flooring | Painting | Finishing & Final Inspection | Key handover to owner.
